

## Biovian Appoints Head of Global Business Development Welcomes Magnus Gustafsson to drive new market entry and client acquisition

September 1st, 2020

Biovian, a Nordic Bio-CDMO committed to providing premium One-Stop-Shop GMP services to biotech companies, is delighted to announce that Dr. Magnus Gustafsson has been appointed Head of Global Business Development. Dr. Gustafsson will be a strong addition to the business and marketing team and will be giving his contribution to the growth acceleration of the company. In his position Dr. Gustafsson will be responsible for identifying new business opportunities within both existing and new markets.

*"We are very pleased that Magnus Gustafsson will assume the role of Head of Global Business Development at Biovian" Dr. Knut Ringbom, CEO of Biovian, states. "His track record of driving a business with both commercial and strategic success combined with a customer-centric mindset makes Magnus an excellent fit for this important role. We look forward to working with him as we continue to implement Biovian's objective in turning ideas into products by taking client projects from the laboratory bench to the clinic."*

Prior to joining Biovian Magnus Gustafsson worked as Director Strategy, Search and Evaluation at Cytiva (formerly GE Healthcare Life Sciences) with the objective of driving top-line growth through technology partnerships that fuelled the company's innovation pipeline. Dr. Gustafsson has a wealth of experience in the CDMO business from his previous role at Cobra Biologics, where he was a member of the Senior Management team and worked as Business and Corporate Development Director during the years of the company's exponential growth. In addition to a solid business expertise Magnus Gustafsson brings with him his proficiency in science with more than 20 peer-reviewed articles as well as 15 years of experience in academic collaborations.

### About Biovian

Biovian is a CDMO that provides premium services to biotech companies developing innovative gene therapies or biopharmaceuticals. Biovian offers its clients a One-Stop-Shop GMP CDMO service, with modularity available from gene to finished vial. Biovian is especially focusing on Viral Vector production, microbial production of recombinant proteins and GMP plasmid DNA. Guided by its Nordic ethos Biovian has established a reputation for delivering high-quality work on time and within budget to a global client base.
